# Suomessa OECD-maiden halvin mobiilidata

Fully allocated gigabyte price (mobile broadband)

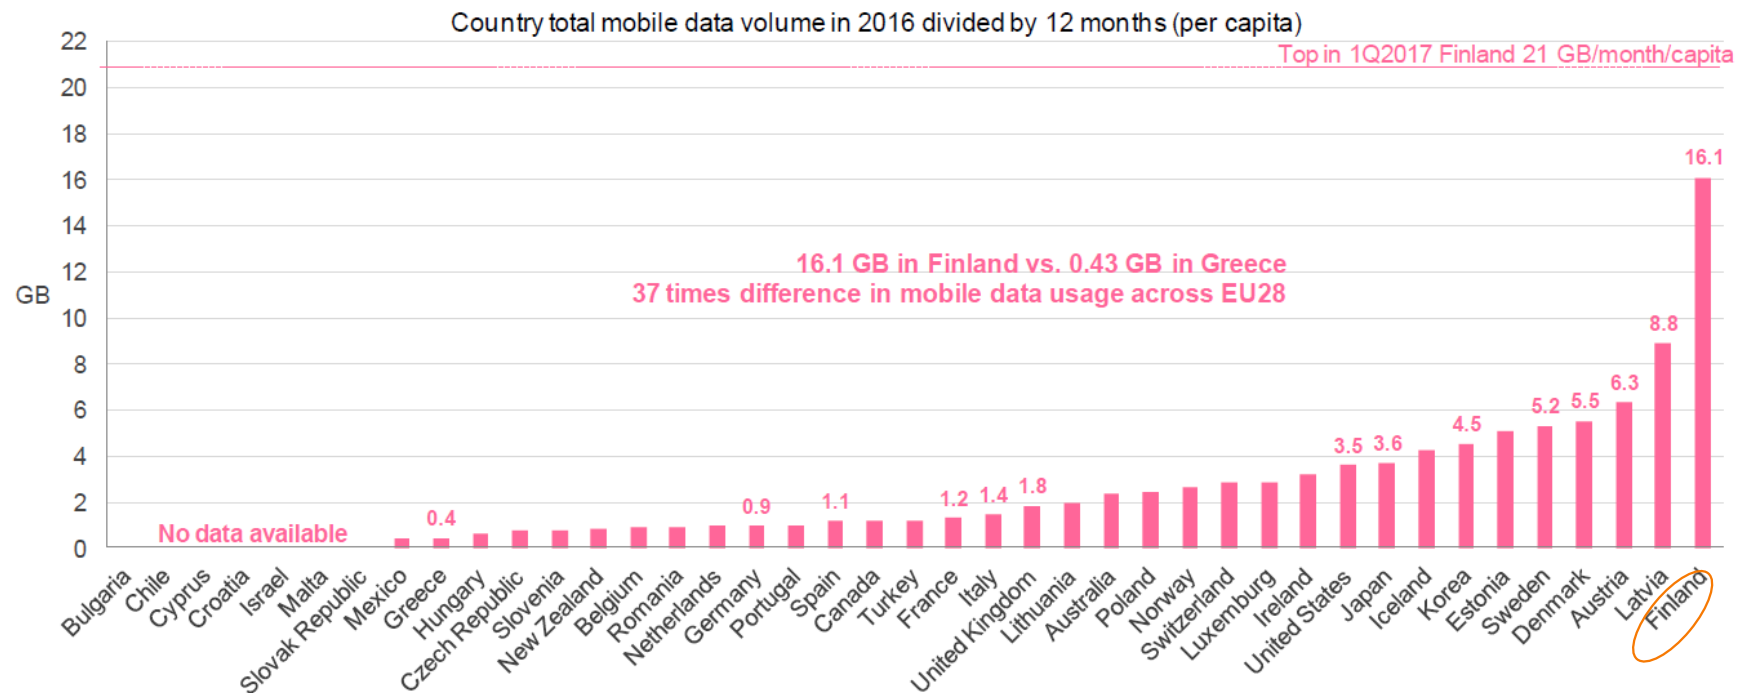

<sup>1</sup> Fully allocated GB price = tariff retail monthly price (incl. VAT) divided by included gigabyte allowance  
 Unlimited plans were assigned a finite volume of 200 GB or 500 GB. 200 GB and 500 GB were the highest finite volumes that €30 could buy in mobile broadband plans with full mobility and stationary usage (i.e. fixed-line broadband replacement) respectively
